# FIREscapeNepto
## Emergency Lighting System

# EL-KP

## Lighting System Keypad

### Features

▸ Complies with BS5266
▸ Provides control over FIREscape system
▸ Easy-to-read LCD display
▸ Robust design
▸ Slim profile
▸ Password protected menus
▸ Programmable function buttons.

### Description

EL-KP is an emergency lighting control panel keypad for use with the the Nepto-3K/HO and EL-2 lighting control panels. The control panel is operated and interrogated through the compact backlit LCD graphical display of the keypad, which can show system status of the lighting units including battery capacity.

One FIREscape control panel can support a total of 8 EL-KP keypads. One EL-KP can control up to 12 networked Nepto-3K/HO control panels.

## Technical information

| | |
